

Simulation Technician Training Program (Tech Sim)

This interactive training program is designed to educate simulation technicians/operations personnel on the key tasks associated with the daily operations and maintenance of a simulation center.

Topics of this program include:

1. Supporting Courses
2. Simulation Center Technology (AV, Simulators)
3. Simulation Terminology
4. Scenario Creation – Programming
5. Calendar Management
6. Repair and Maintenance
7. Running Sim Sessions

And much more.

The TechSim program can be taken online and onsite!

TechSim Online participants will have access to a variety of content topics and additional educational aides like programming forms and preventative maintenance logs.

Take your TechSim Online learning to the next level by participating in TechSim Onsite! Once you have completed TechSim Online, you are eligible to participate in TechSim Onsite, where you will have access to additional content topics that will support a 1.5 day onsite interactive program to be conducted at one of the participating simulation centers.

For more information visit: help@simtiki.org

Participating simulation centers include:

SimTiki Simulation Center John A Burns School of Medicine 651 Ilalo St Honolulu, HI
